DHS Lighting (Asia) Limited Background

DHS Lighting is a **professional lighting consultant** with design and supply of smart lighting solutions such as LED light, energy saving lamp, outdoor light, LED advertising system and underwater lighting.

Customer satisfaction and technology innovation are our basic concept of our products. DHS has a proven track record of helping companies maximize the potential business benefits of using LED lighting. By combining the most advanced digital control system, design rendering and lighting fixture designs with our energy audit standards and performance, DHS becomes your long-term partners for lighting consultant.

DHS Lighting is your long-term partnership in lighting design and build project consultant.

Our Message

We have stressed the easiest way for people to be innovative in their design is to think out-of-the-box, to break their paradigms or mindsets, their ways of thinking. To drive hybrid solutions in their lighting environment is to think out of the box in a new way of integrating an art and a science of lightings.

DHS Lighting (Asia) limited

DHS offers future of smart hotel lighting to integrate environmental system sensor, lighting products with user engagement to build the connected network for creative lighting experience.

DHS Lighting (Asia) limited

DHS Smart Lighting System

DHS offers remote controlled lighting system for your home or commercial applications. You can create your scene mode of how the lighting is changing: according to your time schedule or commercial needs. All you need to do is to wait for the time schedule activated or press scene key of "Work Mode" to have varies changing mood of the lights.

DHS Environmental Monitoring System

If you want to monitor temperature, humidity, spot water detection, security contact zone, float level switch, power failure, motion sensor, smoke detector sensor, magnetic reed door and switch, carbon monoxide (CO) sensor, carbon dioxide (CO2) sensor and other accessorises in a single system in your commercial building. You can do it by using our DHS Environmental Monitoring System.
